

APOCALYPTIC SOCIETY

ABOUT

Apocalyptic Society is a progressive death metal band based in Hershey, PA. The band draws influence from progressive metal, thrash, and old-school death metal with a sound reminiscent of Carcass, Death, and Hypocrisy. From impromptu bashes at fast-food restaurants to packed crowds on venue stages, their live shows are a testament to their determination and extreme level of energy. In the process of releasing their debut album "INSTINCTUAL SELF-SLAUGHTER" they have built an intensely loyal fanbase in the Central PA area. In support of the debut album, Apocalyptic Society is performing a number of shows locally before embarking on a multi-state tour in March 2026.
